About This Game

Not every game is about slaying psychic cyber-demons, or rescuing beautiful dragons from fire-breathing princesses. This one is about art museums.

In Occupy White Walls, you create your own museum and curate its contents. Construct a space, pack it with pictures that are personal to you, and open its doors to welcome the world!

Occupy White Walls is an MMO, where art is the quest and self-expression the reward. Build your own place from a thousand components. Put art where you want it – a stately home, a desert, a metro station, in the void of outer space – or all of the above, it's for you to decide. This is about creation, not destruction. Create something beautiful and show it to the world!

There's a galaxy of amazing art out there that you don't yet know you'll love. To help you find it, is DAISY, our sweet AI, who

can suggest what you might like from observing what you do like.

Some people just aren't moved by most museums. Maybe you're one of them? That's fine! All it means is that the art you see there is wrong for you. DAISY will try find something right. If you like it, hey, take it. Hang it in your virtual gallery. Don't let others tell you what to like. Like what you like.

Alone, with friends or with strangers

Art is meant to be experienced with others. If it doesn't invite conversation, than what's the point? Because of this, social interaction with this central to Occupy White Walls. Why do you like that painting? What do you think of this one? Why did you put those two next to each other?

Make friends with strangers, or be a stranger to others, whatever works best for you. Inspire, be inspired, be inquisitive. Speak your heart through art!

A platform for artists

Every artist deserves an opportunity to reach their rightful audience, but the art market is failing to deliver. Occupy White Walls won't. DAISY doesn't care whether a painting is by Leonardo da Vinci or Leonardo DiCaprio: if she thinks someone might like it, she'll show it. If you're an artist, DAISY will present your work to the potentially interested, just as she would anyone else's, famous or not. The art remains fully owned by you; all DAISY cares about is finding it a following.

More coming soon

Occupy White Walls is a labour of love. We developers feel as if we've opened a door to a world we don't fully understand. We can see that it's wondrous, awesome and exciting, but we're still trying to figure out where next to go.
